## SALLY'S • JOURNEY

ILLUSTRATED BY LIARA K CRANE

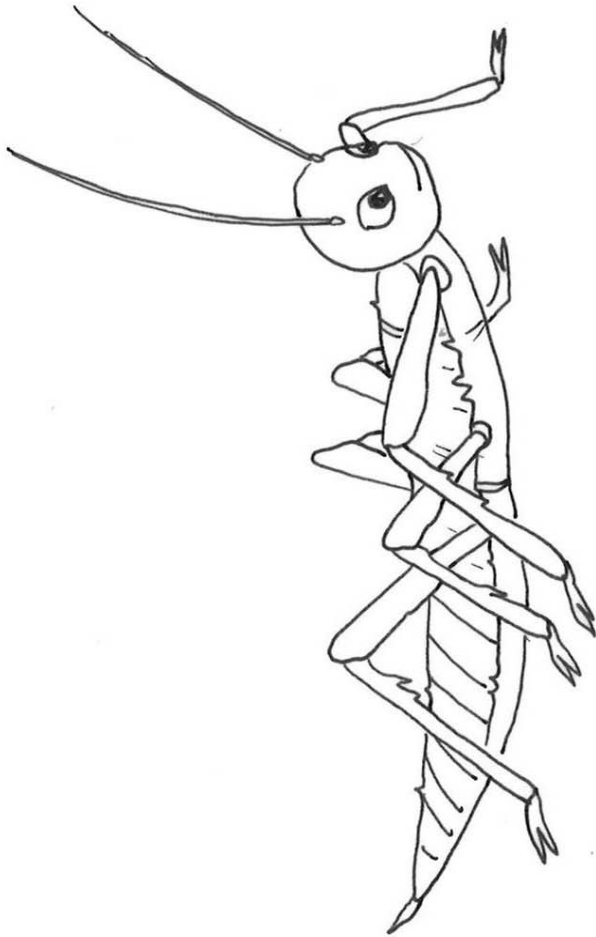

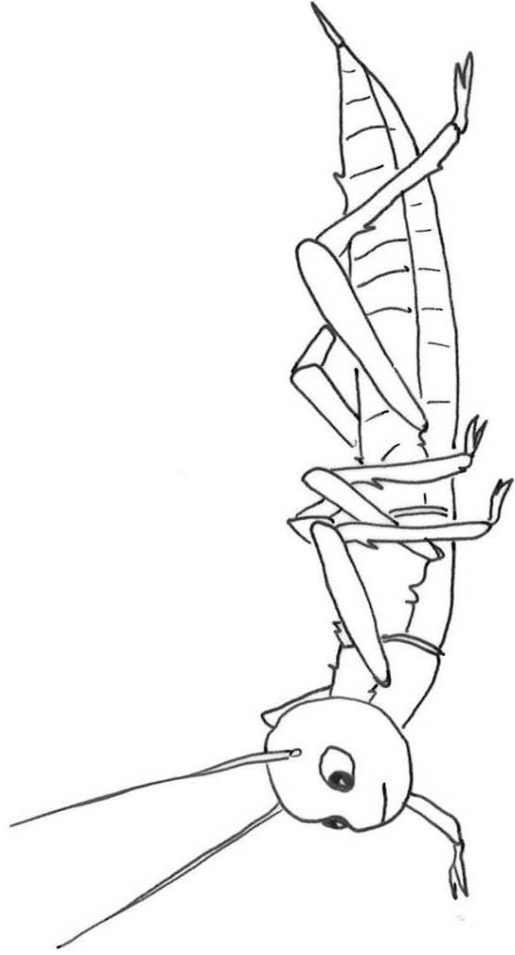

## Sally's Journey

Once upon a time there was a stick insect called Sally.

One day Sally decided that the time had come to find a home of her own.

The children decided to help her find a home.

First of all they came to a river. They balanced carefully over the stepping stones...

...and on the other side they met a frog.

"Hello Froggy" said Sally "can I come and live with you?" "No" said the frog, "your feet are the wrong shape for swimming in the river!"

They said goodbye and carried on along the path.

Next they came to a tunnel. They crawled carefully through the tunnel...

...and at the end they met a rat.

"Hello Ratty" said Sally "can I come and live with you?" "No" said the rat, "there is nothing for you to eat here!"

They said goodbye and carried on along the path.

Next they came to a log bridge. They balanced carefully over the bridge...

...and on the other side they met a camel.

"Hello Camel" said Sally "can I come and live with you?" "No" said the camel, "you haven't got a hump for storing fat or long eyelashes to keep the sand out of your eyes!"

They said goodbye and carried on along the path.

Next they came to a forest. It was hot and wet in the forest.

They made their way carefully between the trees...

...and there on a log they found Sophie.

Sophie looked just like Sally!

"Hello Sophie" said Sally "can I come and live with you?" "**Yes**" said Sophie

"Thank you for helping me!" said Sally to the children. She waved goodbye and headed up the tree with her new friend to eat some tasty leaves.

The End
