TOTAL Mammals: 90																			
TOTAL Mammal species at the start of 2024: 58												Overall number					207+	224+	81+
TOTAL Mammals species at the end of 2024: 58												(+)= groups							
Number of species overall held by the end of 2024: 145																			
<b>M.F.U</b> (sex) male, female, unknown																			
* = amedment to last years end figure																			
Large group-managed species. Not every individual birth/death are recorded into ZIMS when known. This means the start and end of year figures do not reconcile.																			
Periodic census counts are taken to monitor the population, and these are recorded in ZIMS (Species 360), a global database																			
<b>ZIMS</b> (Species 360) - Zoological Information Management System
